

# QHSE

---

VecTrance's mission is to provide energy and infrastructure companies with international consulting services and engineering expertise, for their operational and development projects around the world.

We understand the importance for you to execute your complex and innovative projects under strict health, environment and safety guidelines; and that the safety of your people and those they come into contact with, along with ways to continuously improve energy efficiency and waste minimisation is paramount to your organisation.

With regulatory requirements playing every day an increasing role in QHSE discipline, we can ensure you have the right know-how to implement practical aspects of environmental protection and safety at work through the support of the best **QHSE experts**.

## Our References

---

**VecTrance** provides international QHSE experts on a wide range of complex and innovative projects. Some of our references include:

Technip, FW, Lavalin, Tecnicas Reunidas, CCC, Lafarge-Holcim, Suez, Saipem, NNPC, BP, Kelt, Shell Nigeria, BP, Origin, Alstom, Bombardier.

Oil & gas

Electric transport & distribution

Nuclear

Mining

Renewables  
(wind, solar)

Infrastructure

Hydraulic

Engineering Consultancy Services**

## The skills brought by our QHSE Engineers

VecTrance provides you with the QHSE skills that you need in order to achieve maximum performances, reach the highest safety standards, and achieve significant reduction of costs inherent in the consequences of hazards and accidents on plants or equipment.

Our high skilled professionals, carefully selected to meet your requirements and your projects' needs, can join your team at any phase of a project - **design, construction or operation** - helping you implement QHSE policies on the field, through training, auditing, inspecting, or controlling an actual HSE systems operation. All are experienced and very familiar with QHSE standards (API, IEC, NFPA, OSHA, etc.).

### Some of the areas we can support you in:

- Well integrity management
- HSE management of field process operations
- HSE supervision
- Audits, rating and inspection & QRA
- HSE design consultancy services
- HSE management project operation
- Loss prevention plan, risk analysis
- Operation HSE planning, HSE procedures
- Environment compliance plan, HSE training

**Need support on a project ?**  
Get in touch to discuss your needs.
